5th YEAR ANNIVERSARY

The Flying Eaglet

NUMISMATIC MAGAZINE

(U.S. Air Force Photo)

AIR PROVING GROUND, ARDC, Eglin AFB, Fla.—Lt. Edmond Hock, a consistant advertiser in the **Flying Eaglet** is pictured in his quarters at Eglin AFB, Fla. The Lieutenant holds one of his rarer coins, a 1795 silver dollar. Spread out on the floor for the benefit of the interviewer is an assortment of Hock's more valuable coins and reference material for pricing and grading his collection. In the two years the Lieutenant has been interested in Numismatics, he has accumulated approximately 45,000 coins. His collection fluctuates by the day through active trading.

FLYING EAGLET FEATURED IN NATIONAL COIN WEEK DISPLAY

Many displays such as this have been viewed by thousands of collectors and curiosity crowds throughout the country. At banks, museums, schools, clubs and other show places.

Due to the timely front cover picture-story on **The Flying Eaglet,** the April number was included in a N.C.W. numismatic display at Manchester, Iowa. Exhibited in the First State Bank lobby were the many coins, currency, and Lincolniana material; all of which attracted widespread interest, and considerable news publicity. Among hundreds of items shown was a rare Lincoln oil portrait, from Springfield, Illinois, owned by Homer Platt, coin dealer, who assisted S. G. Klaus in arranging the display.

The new Lincoln Cent design of 1959 also shared prominents with rumors of recall. A small "O" in of, lopsided and the latest they will be discontinued. The fact is they are popular as they are being hoarded. This is true with all first issues.

FROM YOUR EDITOR'S DESK

We finally got the right answers to our "Far Away Places Picture Quiz." Moe Weinschel, of Brooklyn, N. Y. , sent in the correct listing. They were: (1) Sudan 1 Pound Note, (2) Nepal 10 Rupees. His gift has been sent.

Club Meetings—Attending some 10 meetings these past few months I was able to note first hand the proceedings and activities of these clubs. Most of them were interesting and enjoyable. A few could use more experienced officers, who could format club proceedures for the benefit of the members. Coin clubs along with numismatic publications are the life line of the hobby. There are about 800 coin clubs in the country, new clubs are started monthly. Like all new bodies, proper guidance is necessary for a wholesome growing club. The following are some items which may be considered for what they are worth: Officer's reports should be accurate and explained besides reading them. A well informed membership gives better response. Clubs with less than 50 members in attendance shouldn't charge 5% for items in auctions returned to the owners. In one occasion it cost the owner $3.75 and another $1.75 for the privilege of getting their items back. These included a few scarce singles and a complete set of mercury dimes (16D) was V.G. This can be harmful to the hobby and discourage members to bring in lots for the auction. Most lots sold at 10% less then catalog, plus 10% sale charge—add this lost with any lots returned at 5% cost and you have a poor situation.

Plans for an enjoyable evening should be made in advance. One of the members can give a talk on a type series he specializes in. A half hour can be used for an informal discussion on a particular subject by the members. A prize given to the one who can answer the most questions in a quiz. A discussion on how to preserve and collect type series. Improve on the present format and you'll see an improved attendance.

The Berkshire Eagle of Pittsfield, Mass., had a front page story and photo of Don Lutes, owner of the Rare 1943 Bronze Cent. The Flying Eaglet's cover story was also illustrated.

A dealer from N. J. reported seeing a roll of 1959D Cents with the reverse side of 1958, one cent with wheat stalk. The person with the roll was from California. The dealer offered $5 for one piece, but the stranger wouldn't part with any of them.

Some dealers are of the opinion our readers consist of the same readers of other leading coin publications. This was brought to my attention via phone from a dealer in New York. I would like to say this is partly true. A survey of our files shows: 15% read three monthly papers; 5%, four papers; 30%,two papers; 50%, strictly Flying Eaglet. We are going through great expense, on an average of $2,000 a year publicizing our magazine and the coin hobby. Over a dozen magazines and papers carry our ads throughout the country. Our readers are from all walks of life, in thousands of cities, U.S. and foreign. With many eager to buy, sell or trade. This issue, 7,000 copies are being circulated, each month it will increase. For the doubtful advertisers, don't guess, be sure, try an ad. Our expense and quality material warrants higher rates per page, but it is low. We want you to get acquainted with our readers—try an ad today.

Thanks to the following for submitting news items: Ray Huff, R. Chapman, James Walser, K. Tidwell, C. Mihalyi, Ed Coates and A. Peterson.

PROVINCE'S CENTENNIAL RECALLS RARE FISH MONEY 50 YEARS PAST

By FRANCIS DICKIE

British Columbia, Canada

The above picture shows one coin, obverse and reverse, of British Columbia's rarest money. And, in 1958, year of the Province's Centennial, it was of special interest as representative of one past phase in life on the North Pacific coast.

However, through coins of this Fish Money are collectors' items for museums and the Archives of the Province, these would hardly interest numismatists as not being recognized legal coinage.

Yet these coins half a century ago had a very real value to Indian fishermen. Those were the days on the North Pacific coast when all of the commercial species of salmon swarmed from the sea into fresh water creeks and rivers in such vast numbers that a person could actually cross a small stream on the backs of the spawning fish.

In those days also political patronage was as rampant, if not quite so generous, as in recent years. Fifty years ago a salmon canner on the right side of politics was given what was then known as "Closed Water" Rights; that is only fishermen in his employe could take salmon in a designated area of sea of one to two hundred square miles.

Half a century ago some cannery owners were not even satisfied with the wealth resulting from such sole rights to fish over enormous expanses of sea unbelievably teeming with salmon. Some canners also operated 'Company' stores. To make certain the Indian fishermen could not buy elsewhere, the canner issued to 'his' fishermen tinned coins such as shown here. These are one inch in diameter, a tin composition, weighing 1/8th ounce. Each coin was paid the Indian fisherman on the delivery of 50 salmon, instead of legal coinage, and, of course were only good in 'that canner's store.' This made each coin variously worth from $1 to $2.50, according to the different value of each species of salmon, and the existing market price of the day. Thus the canner made a profit on canned fish, plus exorbitant profit he charged on the goods purchased. This coinage is probably the only one of i's kind in the world, which is one more unique object of several to which British Columbia may lay claim in this, its Centennial Year.

READERS FIND

Hi Frank:

Enclose find my payment for the coming year, plus the price of one grading sheet. I'm happy to report a very lucky find. I got 10 rolls of nickels out of our bank and found a 1913S type 2 in almost fine. Keep the "Eaglet" coming.

WHAT A FIND THIS WAS

Dear Sir:

I enjoy reading your wonderful magazine very much.

I have been collecting for about three years and never found a rare coin in circulation. But this week, a friend in school said, he had a roll of standing liberty quarters and that I could have it for face value. Looking through the roll I found a 1916 uncirculated quarter. That made my set extra fine to uncirculated. I have never heard anything like it before.

FRED SCHORNSTEIN
Lynbrook, L. I., N. Y.

(ED. Note)
Neither have I.

Calgary Coin Association—Topics of interest to all numismatists were discussed in length at the February meeting of the Calgary Coin Association. Keen enthusiasm was shown by the 60 present.

Resolutions were proposed by Jack Marles, Resolutions Committee Chairman, which are to be presented at the C.N.A. Convention in September.

Ideas expressed in the resolutions were:

The Calgary Coin Association is sending a request to the Mint for the Canadian Government to change from the present proof-like sets in cardboard holders to a proof set housed in a case.

Considerable discussion took place on this subject. Many objections to the present sets were brought out by the members. These included the poor packaging of the coins which often results in the coins being scratched before reaching their destination, the quality of the coins has deteriorated in the past few years in our opinion, and it was felt that Canadian sets could not be compared favorably with the other British Commonwealth countries or with the U.S.A.

The Calgary Club would appreciate hearing from other clubs and individuals on this subject. Kindly write to Mr. D. M. Stewart, Secretary, 610 - 3rd St. S.W., Calgary, Alberta.

Dear Sir:

Am enclosing my check for $12.50 to cover renewal of my subscription for three years ($7.50) and a four inch ad for the enclosed copy. This is my first ad in your magazine and I am looking forward to the response.

Enjoy the "Eaglet" very much. About the only worthwhile find I have made lately was a double clip 1959D 1c B.U.

JOHN F. BIGONY
McGregor, Texas

Dear Sir:

I think your magazine is a great help to coin collectors. I just started receiving your magazine recently. I think it is great.

A few weeks ago I found a 1888-O proof silver dollar. I have looked through all of my coin books and couldn't find the value of it. Can you inform me on the value.

Gentlemen:

My subscription must be in arrears, so here's my three bucks.

Note Carl Lamping's letter, "Nothing in 250,000 cents sorting." I'll admit it is getting tougher every day, but I am still making a few "finds."

Here's one for the books: In the mid thirties I purchased a coin board for a quarter, with the understanding I could get $3.75 for it when filled with the exception of S-V.D.B. 1909—all found in circulation except 1922D for which I paid 15c.

Wishing to complete the set, and never having found one in circulation, I ordered a 1909-S. VDB from a dealer, described as unc. cond., for $3.25, even then almost as much as I was origionally offered for the entire set. In a few days my check was returned, with note that it had been sold and no more were in stock. That same day—believe it or not—I opened a roll just received from the bank, and there right on top was that very cent, in fine condition.

I had then no intention of ever selling this collection, in fact was rather proud of it; but about a year ago another dealer kept urging me to make him a price on it, and wishing to bring the matter to a head, I made him one which I was certain he would refuse. The way he reached for his wallet almost knocked my hat off, and away went my prize collection.

Just checked the price list I ordered this coin from and could hardly believe my own eyes. Here are a few quotes, retail too: 1877 Ind. unc $12.50 vg $2.75; 1908S, unc 35c; 1931S, unc. 75c; 1914D, fine, $2.00; 1931D, unc. S 75c. Yes, these are 1941 retail prices—only eighteen years ago.

PURCHASING ITEMS FROM ADVERTISEMENTS — Coins are offered for sale in the following manner: By Fixed Price—the price quoted by the seller; Or by Auction, where there is no price quoted but solicited. In this method of sale a lot number is given each item. You enter a bid along side of the lot of your choosing, which can be higher or lower than (price guide if one is listed). The high bidder being the buyer. After the closng date, the advertiser will notify those who are the highest bidders. Unless credit is arranged, payment is required before shipment is made.

THE PUBLISHER reserves the right to edit or reject any ads or news they deem objectionable and will not be responsible for letters written by hand. Please send cash with ads. All advertising cuts to be furnished by advertisers or send cash amount to cover expense of having it made. Send articles, news items of interest for print to the Editor.

Manufacturers supply and material prices will be honored. No cut-rate ads of same will be accepted in order to protect name brand company prices.

We accept advertising in GOOD FAITH. All transac'ions will be solely between the advertisers and the purchaser.

Opinions expressed by writers of articles, columns, comments, etc. in this magazine are their own and do not necessarily represent the views of the editors or officers.

When writing for information to dealers or collectors, be kind enough to enclose a stamp for a response. It's been my pleasure to say practically all dealers and collectors are honest and fair. No trades are final until both parties are satisfied. On purchases it is customary to give at least a 3 day satisfactory refund.

No reply in 7 days, transaction considered accepted.

GRADING STANDARD

PROOF — Coin, a mirror-like finish, especially struck for collectors on polished metal blanks and struck by slower hydraulic press to obtain best feature lines.

UNCIRCULATED — made for general circulation has lustre but never reaches circulation. A Gem Unc. is unusually well struck, has lustre, no scratches, rubbings or mars.

EXTRA FINE & A. U.—about same. Coin is about uncirculated, slightly worn on high points and may have some mint lustre.

V. Fine—Has been circulated but all features and lettering are sharp.

Fine—Has all features and lettering but not sharp. Liberty is readable.

V.G.—Has border rims, most features and lines visible. Part of Liberty visible.

GOOD—All features and lines worn but visible.

FAIR—Considerably worn.

POOR — Considerably worn smooth, or corroded, good only as space filler.

This grading is used only as a guide to help you and is a general medium used by all dealers and collectors in the Numismatic field.

POINTS TO LOOK FOR ON SOME POPULAR COINS

1 CENT LINCOLN: The lines on wheat stalk and Lincoln's ear are a good spot to look for wear. On a coin classed as very good most lines should be showing, on a coin graded fine they should be clear.

5 CENT LIBERTY: E Pluribus Unum is legible on coins graded good, clear on coins graded very good. One graded fine should have full liberty.

5 CENT BUFFALO: On a good coin edge of word Liberty may be slightly worn, but on one graded very good the word Liberty is clear and one-half of horn shows, a fine coin should have nearly a full horn, a coin classed as very fine has full horn and tail shows on hip.

10 CENT MERCURY: Watch lines on ax faces, on coins classed very good some lines show, a fine coin should have all lines.

FOR BEGINNERS who are just starting to collect, here are a few suggestions and some advice. First, a coin guide book is a must. They can be purchased for $1.00 or more for helpful information: on care, condition, value, amount minted, types, how coins are made, and other news of help and interest. Most coins can ge found in circulation. As you are making your set always try to improve the worn coins. Value of coins depends greatly on the condition. Never clean or polish coins unless you are experienced. If you must try, use a common date coin. There are handy cleaning kits available for this purpose. Coin insert folders and other supplies can be obtained at your dealer. You may also notice that the age of old coins do not make them rare. There are some late date coins minted that are worth more than some hundreds of years old. What makes one coin worth more than another are by these factors: Amount of coins minted, availability, collectors demand and any unusual die strikes. Coins can be obtained through purchases, by auction or trading with collectors. **Mint sets** can be bought by writing the Treasury Dept., U.S. Office of Treasury, Washington 25, D.C., at face value, plus postage and handling. To obtain **Proof Sets** of current year send $2.10 money order to Supt. Phila. Mint, 16th and Spring Garden Streets, Philadelphia, Pa. You may order up to 100 sets per person. **Commemorative** half dollars are authorized periodically by Congress. These halves when issued are not sold by the mints. They are turned over to a Commission authorized by Congress at face value. The Commission then sells the halves at a premium.

SATISFACTION GUARANTEED

Every item offered for sale in this publication is sold by the advertiser on a satisfaction guaranteed or full refund basis. Full refund will be made for any unsatisfactory item, provided return is made within 3 days of receipt. In turn the advertiser will send refund within 3 days of receipt of the returned item or items.

In event an ordered item is out of stock, the advertiser will not make substitutions of lesser or greater grades without first obtaining permission of the buyer. Remittance will not be held, awaiting replenishment of stock without first obstaining permission of the buyer.

1 FRANC DATED APRIL 6, 1944 — REPUBLIC OF FRANCE

A Possible Rare Item — Do You Have One?

This odd paper currency shown is enlarged about four times its original size. It measures 1⅜" x 1¼" or a little larger than a postage stamp.

Little can be said about this interesting item which was brought back from Africa to the U.S. by a G.I. during W.W. II, as a souvenir. But some research by a foreign paper money collector should prove interesting. The owner doubts if another can be brought forth, due to its small size and low value it is assumed many were lost or destroyed.

During the war, its value was 2c. Today's present market is about 450 Francs to $1, or about ¼ cent. Wording on the obverse reads: "Lecontrefacteur Esteuni Des Travaux Forces." The reverse reads: "Empire Cherifien Protectorat De La Republique Francaise." If any of our readers can supply any information on this 1 Franc, please write to our office.

JUST ONE MAN'S OPINION

The Carson City Dollars are the most underpriced series of all coins minted All one has to do is check the number minted of each year and you will see that there will never be enough to supply our five (5) million or more (est.) collectors. Take the 1885 with only 228,000 minted. This would be one for about every twenty-one collectors. Second comes the 1881 with only 296,000 and so on

I have a few sets of the 1880 through 1885 complete in Strictly Brilliant Uncirculated.

For set of six (6).....$21.95

BELOW ARE MY PRICES FOR SINGLE COINS . . . ALL BRILLIANT UNCIRCULATED

Please keep in mind that I guarantee every dollar I sell to be Strictly Brilliant Uncirculated. Money back guarantee plus return postage if not pleased

My second offering for this month is, in my opinion, a small set with a future. The War Time Silver Nickel consisting of 11 coins minted 1942 to 1945. (See Red Book.) This set in Brilliant Uncirculated is beautiful and also underpriced in this booming coin market.

My price for the complete set is.....$7.50 Only until present stock is sold.

The 1943-D is of course in this set and this is one that I compare in value to the 1942-D which is selling today for $4.50 each.

U. S. Nets $1.06 Minting 145 Cents

The new Lincoln cent being made at the Denver and Philadelphia mints will net the federal government a profit of nearly $8 million a year.

Production of the cent with the Lincoln Memorial on the reverse side started January 2 and is expected to continue until the year 2009—the 200th anniversary of Abraham Lincoln's birth.

Mrs. Alma Schneider, director of the Denver mint, did some research on cost and production figures which show that Uncle Sam will make a profit of $1.06 on each 145 cents struck.

One pound of copper alloy from which 145 pennies can be made costs the government 28 cents. Cost of labor for that number of pennies is 11 cents, or a total of 39 cents per unit of 145.

Last year, the Denver and Philadelphia mints made 1,333,882,000 of the old Lincoln pennies. The profit on that production was $7.7 million.

Mrs. Schneider said the Denver mint can turn out 3 million to 6 million pennies a day, depending on demand.

ACA GRADING STANDARD

FOR LINCOLN CENTS

BU GEM—

A brilliant, perfectly struck specimen in absolute mint condition, with clear, sharp design on both sides and 100% free of defects, discoloration or other imperfections. Inscriptions, mint letter and date are sharp and boldly defined.

BRILLIANT UNCIRCULATED (BU)—

A brilliant unused coin which is not a perfect die strike, but is 100% free of wear, discoloration, tarnish or smudges of any nature.

BRIGHT UNC. (BR-U)—

Same as BU, except original mint brilliance has become toned downward to a more coppery or reddish luster due to some exposure and oxidation.

UNCIRCULATED (U)—

An uncirculated coin—100% free of wear with patina dull, dark or otherwise discolored.

EXTREMELY FINE (EF) or, ALMOST UNCIRCULATED(AU)—

A circulated or used coin with so little wear that it can pass for uncirculated unless close examination is made. This coin can even possess some mint luster. Only by careful examination of the major highpoints of the design with a magnifying glass (Lincoln's cheekbone and/or jaw, and/or the sharp peaks of the wheat lines—serrations—located at the upper ends of the wheat stalks on the reverse of the coin) can microscopic signs of wear be detected. Inscriptions, mint letters and dates are sharp and intact.

VERY FINE (F)—

Same as EF, except for slight flats or plateaus of wear on Lincoln's cheekbone and jaw which are clearly visible to the naked eye.
On the reverse, the wheat grains on the lower part of the wheat stalks show small flats due to wearing or friction, while the wheat lines are no longer sharply peaked but are slightly duller and rounder, but each ridge is still clearly separate and distinct.

FINE (F)—

Same as VF, except Lincoln's cheekbone and jaw are marked with broad plateaus—but are still clearly separate and not merged. Wear will also be visible on Lincoln's ear and forehead as well as on his tie, coat lapel and shoulder.
On the reverse, wear may have slightly flattened a few of the wheat lines on the right or left wheat stalk but each wheat line is still distinct and separate.

EXTREMELY GOOD (EG), or ALMOST FINE (AF)—

Same as F, except the two plateaus of wear on Lincoln's cheekbone and jaw spread to the point where only a thin shallow line of cheek lies between them. This may only appear as a small indentation on the facial surface. On the reverse, wheat lines are visible but worn, with slight blending or smoothing at the extreme tips of the stalks. Outlines, however, must be unbroken and clear.

VERY GOOD (VG)—

Same as EG, except wear has blended all facial details on Lincoln's profile. The face is smooth, leaving only a silhouette or raised outline. This outline, however, must be unbroken and intact.
All inscriptions, letters and date are no longer sharp but must be clear and intact.
Faint or part wheat lines must still be visible, however, on upper wheat stalks.

GOOD (G)—

This grade is identical to VG in all respects, except wheat lines are entirely missing, leaving the wheat stalks smooth. Stalk outlines must, however, remain clearly silhouetted and unbroken.

ALMOST GOOD(AG)—

Wear has blended portions of Lincoln's profile into the background. Parts of letters and inscriptions are worn away. Date is readable. but not intact, due to excessive wear and blending throughout.

PRICING—

GRADING IS GOVERNED SOLELY BY THE RATE OF WEAR IN A COIN, NOT BY ITS PHYICAL IMPERFECTIONS OR DEFECTS.

To illustrate: A fingerprint on a BU coin does not downgrade—it merely downs prices.

Consequently when buying, selling or trading, the grade of a coin must not be raised or lowered, juggled or manipulated, but must remain constant to the coin's actual state of wear.

Once the actual grade (degree of or freedom from wear) has been established, the market value or price of the coin can then be computed by taking into account any physical defects, nicks, scratches, fingermarks, discolorations, verdigris, or other imperfections.

The price of a coin can be whatever the market will bear—but the Grade must remain a constant standard of measure.

CLEANING—

NEVER CLEAN A CIRCUCULATED COIN BELIEVING YOU WILL ADD TO ITS PREMIUM OR MARKET PRICE.

A circulated coin which has been cleaned IS a cleaned coin and will forever look like a cleaned coin. It is no longer desirable as a specimen in its NATURAL state, but falls into a separate and private category for the rest of its life.

We are not saying that coins cannot be cleaned by a competant and experienced numismatist but we are stating flatly: A cleaned coin loses more than 50% of its marketability since the majority of collectors will not buy a cleaned coin in preference to one not cleaned—EVEN THOUGH THE CLEANED SPECIMEN MAY ACTUALLY APPEAR MORE ATTRACTIVE AT THE TIME.

A toned coin has no lesser appeal or demand than a brilliant—since the experienced collector realizes that a brilliant coin is brilliant only for a short space of time during the life of the coin—AND WILL NOT PAY ANY APPRECIABLE AMOUNT FOR THAT FLEETING AND TEMPORAL VALUE.

The age, brilliance or perfection of a coin is, at best, merely contributory to the aesthetic pleasures of collecting, while the market value depends essentially upon thhe ancient law of supply and demand.

PAPER MONEY ROUND-UP

A.M.G. — A POSTSCRIPT AND AN INVITATION

By Harold Don Allen

The collecting fraternity is discovering the fascination of the Allied Military Government paper currency of the war years—but not a few are suspecting that the discovery has taken place about fifteen years too late.

The Flying Eaglet's front-page feature, "Allied Occupation Currency: An Interesting Field," December 3, 1958, has aroused much latent interest, and accrued a number of noteworthy comments.

So little has been published on this important series that we do well to record an error that "slipped by in the type." The Pacific "yen" series, in dollar-sized format, lists three denominations, a 20, 50 and 100 yen. The 50 should not be included. The only "full-size" denominations known are the 20 (red-purple overprint) and the 100 (blue). For the record, the colour overprints on the other denominations are as follows—Squarish format: 10 sen (red-purple), 50 sen (blue), and 1 yen (green). The intermediate size: 5 yen (green) and 10 yen (blue).

Several minor sub-species were intentionally overlooked in the introductory article, but letters from collectors indicate that there is merit felt in their being recorded. Dr. Keller reports a "star" series in the Italian issue, probably analogous to the United States star notes. Serial numbers themselves often prove a giveaway to the student of paper money. If you doubt that the Italian series is the work of the U.S. Bureau of Engraving and Printing, compare the serial number digits with those on a current high-denomination revenue stamp.

Great interest stems from the overprinted control-numbers associated with several denominations of the issue for France. These numbers, not always present, consist of a digit such as those of the serial number: it appears twice on the large-format obverses; once on the smaller notes. Our first theory was that the digit was an overflow from the 8-digit numbering heads, a ninth digit to make possible a bigger number. Evidence contradicts this, for why, then, should some of these numbers, and not others, prove scarce. Another possibility is that the digit is a regional overprint, or other distribution code. This seems probable. Fifteen years after the issue date, someone still should remember: perhaps the record can be set straight.

Overprints of '2', '3', '4', '5', '6', and '7', and also an 'X', have been reported by readers. Most of the overprints recorded have been on the 100 franc denomination of notes.

The Flying Eaglet is prepared to publish a list of known varieties in a subsequent issue. To this end, readers are invited to submit the following details on any of the French overprinted notes:

1. Type: "Flag" or "France" reverse.
2. Denomination.
3. Overprint.
4. Eight-digit serial number.

Do not attempt this from memory. Complete accuracy is absolutely essential to "keep the records straight."

Results will be tabulated, and published in this column in June.

For the many who are interested in serial numbers, it may be worthwhile to attempt to locate the point at which the "changeover" occurred from "Series 1943" to "Series 1943-A" on the various Italian denominations. These were the only series in which a changeover took place within a sequence: the "B" Yen reverted to unity and a new series. For this purpose, students of the Occupation issues may be willing to put on record the highest serial number they have located of the "1943" series, and the lowest of the "1943-A", for each of the following denominations:

5 lire
10 lire
50 lire
100 lire
500 lire
1,000 lire

Results, if conclusive, will be reported in print.
